Ben,  
NAREL said to expect final results by first week of December. We need to have them validated quickly thereafter. I think we used a corporate person last time for the validation. Can you arrange for that again?

Thanks,  
Dan Gaughan

Hi Dan,

Tonya has been out of the office this week.

All sample analyses should be completed and reported by the first week in December. We will push to get them done sooner since you have a legal issue you're dealing with.

Cindy

Tonya,  
Thanks for sending this data. Any idea of when the soils data will be available? We are in the beginning stages of a lawsuit with the property owners and would like to know a general timeframe for when we can expect that data.

Thanks,

Dan Gaughan

Attached are electronic copies of data packages and a cover letter for the Canadian Radium and Uranium Project as well the EDDs for the data. Hard copies will not be sent unless requested.

Please let me know if you have problems with the files or require hard copies of the data packages and cover letter.

If you have questions regarding the data, please contact Cindy White at 334-270-7052.

**NAREL reports data to the requestor only. If results are needed by contractors or others in your region, please forward this email along with its attachments as you deem necessary.**
